Aims and Scope

Research and Practice in Thrombosis and Haemostasis (RPTH) is the newest journal of the International Society on Thrombosis and Haemostasis (ISTH) and the newest journal in the field of thrombosis and hemostasis. Complementing its flagship journal, the *Journal of Thrombosis and Haemostasis* (JTH), RPTH provides a dedicated Open Access home for science and discourse among researchers, clinicians, nurses, allied health professionals, and patients.

RPTH is a "living journal" and serves as a jumping point for digital discussion. It also reflects the current era of inter-disciplinary scientific discovery and new methods of knowledge dissemination and the wide reach of ISTH by featuring articles from all corners of the globe. RPTH provides rigorous, rapid peer review and immediate dissemination of research reports from basic, clinical, translational and population or public health science. The Journal is interested in quality, outcomes, dissemination and implementation science, seeking studies and trials on novel care delivery, including in areas of resource constraint around the world.

 Digital discussion is encouraged through the dedicated Twitter account: @RPTHJournal and can be found with the hashtag #RPTH

Open Access and Copyright

All articles published by *Research and Practice in Thrombosis and Haemostasis* are fully open access: immediately freely available to read, download, and share. All *Research and Practice in Thrombosis and Haemostasis* articles are published under the terms of the Creative Commons Attribution-NonCommercial-No Derivs license ("CC-BY-NC-ND"), which permits users to copy, distribute, and transmit an article as long as the author is attributed, the article is not used for commercial purposes, and the work is not modified or adapted in any way. An exception is made for Contributors funded by agencies requiring use of a Creative Commons Attribution license ("CC-BY") which permits others to use, distribute, reproduce, remix, tweak, and build upon the work in any medium (even commercially) as long as the Contribution is credited for the original creation. Such funders include the Research Councils UK, the Wellcome Trust and other funders recognized by the Publisher as requiring a CC-BY license, who may publish their Contributions under a CC-BY license.

Copyright on any research article published by *Research and Practice in Thrombosis and Haemostasis* is retained by the author(s). Authors grant Wiley a license to publish the article and identify itself as the original publisher.
